Subject: HB 5225

Please forward to appropriate members.

I support HB 5225 with the substitute language. I oppose the current permit system law that is an infringement upon the people of Michigan's civil rights. The process is a duplicate of the Federal system that all other states are mandated to use. This costs Michigan money that we don't have when the Federal government is doing the same check on pistol purchasers. Help Michigan join 45 other states in respecting their citizen's rights.
